

Partners-in-Education Program in Hanover County Public Schools

The Superintendent's Business Advisory Committee provides a medium for the exchange of information between the business community and the Superintendent of Schools. The Committee may be asked to evaluate any phase of school business management, provide insight and advice on any educational programs, and promote career education activities. The Committee affords the business community an opportunity to express to the Superintendent perceptions about the education of Hanover's children. The Business Advisory Committee serves to increase understanding and cooperation between Hanover County Public Schools and the business community.

Effective Communication for Employment

Business and community representatives come to the classroom to share with students information about their own careers and to emphasize how dependent their jobs and all jobs are on a strong work ethic and the ability to read, write, and communicate effectively. ECFE partners also frequently provided students with mentoring, shadowing, and service opportunities, thereby exposing students to the world of work and career opportunities. Forty-one speakers, representing 38 businesses, participated in this program.

Partners-In-Education Program

This program has been going strong since 1985 when there were only 15 business partners and 15 Hanover County schools. Schools have partnership with businesses or community groups. These partnerships vary from recognizing academic achievement and good citizenship to teaming with a school or the school division to enhance and enrich the educational experience of our students.

Partners-in-Education Goals

- Enhance the educational experience of all students through greater exposure to the working community.
- Establish a good working relationship between the school and the workplace.
- Involve business in school programs and decisions, which will benefit them.
- Develop and promote linkages from the school to the workplace.
- Provide opportunities to match the needs, interests, and resources of the schools and community.

In May of each year, the Business Advisory Committee sponsors a celebration of our Partners-in-Education program with a luncheon hosted by Kings Dominion. This luncheon is to recognize those businesses and agencies that have served as partners with the school and central service departments or have participated in the Effective Communication for Employment Program in the high schools since the program began.

During the 2011-2012 school year there were 274 formal partnership agreements including 32 business partners with ten or more years of service with Hanover County Public Schools. The Partners-in-Education program is vital to our schools, our students and our community.

The Superintendent's Business Advisory Committee, Hanover County Public Schools and the Hanover County School Board express their deepest appreciation to the many businesses and community organizations that have given freely of their time and resources to enhance the educational experiences of our students. Without their support this program would not be possible.

If you are interested in becoming a business partner with Hanover County Public Schools or would like more information, please call Margaret Hill, Business Partnerships Specialist, at 804-365-4565 or email mhill@hcps.us.
